Management report

We are pleased to inform that as of January 1, 2025 the Central Bank of Curaçao and Sint Maarten (CBCS) has officially lifted all emergency measures that were previously imposed on our companies. This decision reflects confidence in the companies restored financial health, improved governance and risk management practices. The lifting of these restrictions allows the companies to operate under normal regulatory conditions once again. The companies have been successfully acquired by the newly incorporated ENNIA Holding N.V. as part of the restructuring. The CBCS has also reissued the companies operational license, enabling full and lawful continuation of our core business activities. This milestone confirms that the companies have met all required regulatory and compliance standards.

The companies concluded the year 2024 with a positive financial result. Net earned premiums increased to ANG 65.2 million as compared to ANG 63.8 million in 2023. Net results amounted to ANG 10.2 million as compared to ANG 5.5 million in 2023.

Although reinsurers globally are increasing their premiums, a key pillar of our strategy is the selection of highly rated reinsurers to safeguard the companies solvency and support sustainable growth. The current reinsurance program is structured to optimize risk mitigation while ensuring financial security and compliance with internal and regulatory risk appetite frameworks. The ongoing increase in medical costs, driven by aging populations and limited growth opportunities on the local health market, continues to put pressure on our cost structures. Maintaining affordable premiums while ensuring sufficient coverage remains a delicate balance.

With the regulatory status normalized and the ownership transition completed, the company is well-positioned to focus on:

- Rebuilding client and market trust
- Executing a refreshed strategic plan with the focus on digital transformation
- Claim management optimization
- Cost efficiency
- Enhancing compliance, internal controls and sustainable growth.

We thank our stakeholders for their continued support throughout this transitional period and look forward to a prosperous future.

NOTES TO THE FINANCIAL HIGHLIGHTS

Throughout these notes, the word "Group" refers to Ennia Caribe Schade N.V. and Ennia Caribe Zorg N.V., either collectively or separately.

Statement of compliance

The financial highlights of the Group have been prepared in accordance with the "Provisions for the Disclosure of consolidated Financial Highlights of insurance Companies" issued by the Centrale Bank van Curaçao en St. Maarten, the provisions of the "Landsverordening Toezicht verzekeringsbedrijf (P.B. 1990,77)" and "Landsbeduit Financiële eisen verzekeringsbedrijf (P.B. 1992, S2)"

Basis of preparation

Items included in the financial highlights of the Group are stated in Antillean Guilders (ANG), which is the Group's functional and presentation currency. All amounts in the notes are shown in thousands of ANG, rounded to the nearest thousand. unless otherwise stated.

Basis of estimates

The preparation of the financial highlights requires the Group to make estimates and assumptions that affect items reported in the balance sheets and profit and loss statements. Actual results ultimately may differ, possibly significantly, from those estimates

Investments

Other loans and deposits are initially measured at fair value plus incremental transaction costs, and are subsequently measured at amortized cost using the effective interest method, net of an allowance for impairment. Debt securities are initially recognized at fair value plus transaction cost and are subsequently carried at amortized cost using the effective interest method.

Current assets and other assets

Cash and cash equivalents

Cash and cash equivalents comprise cash balances on hand and short-term highly liquid investments with maturities of three months or less when purchased.

Receivables and other financial assets

Receivables and other financial assets are initially measured at fair value plus incremental transaction costs, and are subsequently measured at amortized cost using the effective interest method, net of an allowance for impairment.

Provisions for Insurance Obligations

Non-actuarial basis

General insurance and health outstanding claims provisions are based on the estimated ultimate cost of all claims incurred but not settled at year end, whether reported or not. Significant delays are experienced in the notification and settlement of certain types of general insurance claims, particularly in respect of liability business for which the ultimate cost cannot be known with certainty at year-end. Outstanding claim provisions include 'claims incurred but not reported' (IBNR).

${\bf Technical\ Information\ on\ Risk\ Coverage\ and\ Reinsurance}$

The Group has developed its insurance underwriting strategy to diversify the type of insurance risks accepted and within each of these categories to achieve a sufficiently large population of risks to reduce the variability of the expected outcome. Factors that exacerbate insurance risk include lack of risk diversification in terms of type and amount of risk, geographical location and type of industry covered. The frequency and severity of claims can be affected by several factors. The most significant are the increasing level of awards for the damage suffered as a result of exposure to several factors. The Group only contracts reinsurance protection with reinsurance companies that are rated.
